

real extent of gender divisions on the labour market or how far women achieve their professional aspirations. Nor does it reflect the growing importance of such questions.

There is certainly some interest in overcoming inequalities in the positions of men and women, but they are not generally seen as (conscious) discrimination. For this reason real change cannot be expected if equal opportunities policies are limited to the working arena, without setting long-term goals in the wider social and cultural context.

Translated by April Retter

VĚRA KUCHAROVÁ has been a senior researcher at the Research Institute of Labour and Social Affairs since 1991. Her specialisation concerns social problems of family, women's issues, social exclusion and social policy. She was a member of teams preparing national reports of the Czech Republic for the Beijing Conference on Women, for CEDAW and for MONEE project/UNICEF. Recently (1999) she published as a co-author a study entitled The Social and Economic Conditions of the Young Generation's Family Behaviour in the Czech Republic.
